## How to perform a manual backup in the Appliance

Pamela Kiewitt - 2019-05-23 - 0 Comments - in PrimeKey Company

To perform a manual backup please follow these instructions:

1. Login to the Webconf
2. Go to Backup
3. Fill in the destination host, the path and click on "Backup now". A green notice comes up showing the job ID and that the process has started.

4. Wait for a while, when the backup is done you will see the following:
